SUMMARY

Front-End Developer with 3+ years of experience specializing in React, JavaScript, and UI/UX optimization. Passionate about building responsive, high-quality web applications. Skilled in collaborating with cross-functional teams to enhance user experience and performance. Proficient in modern frameworks and version control systems.

MOST RECENT WORK EXPERIENCE

Mid Front-End Web Developer

Technologent | March 2024 – Present

Project: KBrain (AI-Driven Chat Solution)

- Developed and maintained React-based components, integrating machine learning APIs to enhance interactivity.
- Improved UI/UX for a seamless experience across admin panels and customer-facing pages.
- Optimized performance by reducing API calls and implementing lazy loading techniques.
- Utilized Git for version control and contributed to clear release notes and documentation.

Freelance Web Developer

November 2023 – March 2024

- Built high-quality websites, blogs, and landing pages using Next.js, Tailwind, Vite.js, and React.
- Developed Robocon's landing page to showcase a teenage robotics team representing Mexico internationally.

Junior/Mid Full-Stack Web Developer

SCIO Consulting | August 2023 – November 2023

Project: Pidamos.de (Delivery App Similar to Uber Eats)

- Upgraded the front-end to modern standards, improving UI/UX and maintainability.
- Boosted PWA speed by optimizing API calls and reducing unnecessary data processing.
- Full-stack development, enhancing administrative and customer-facing features.

Junior Full-Stack Developer

SCIO Consulting | May 2022 – August 2023

Project: ScrubMoney (Financial App for Doctors in the US)

- Developed a full-stack mobile and web application, integrating AWS DynamoDB.
- Designed mobile UI with Figma and implemented API connectivity.

- Built an admin panel for enhanced user management and reporting.

Junior Application Developer

SCIO Consulting | December 2021 – May 2022

Project: TryNow (Try Now, Buy Later – Shopify App)

- Customized features for 40+ Shopify merchants to enhance TryNow functionality.
- Led A/B testing and Google Analytics optimization to improve user experience.
- Contributed to SDK and checkout updates, improving purchase flexibility.

EDUCATION
